Rising Ground (formerly known as Leake & Watts) is a New York City based non-profit organisation that helps families discover their own strengths and build upon those strengths using evidence-based models with proven records of achievement. They work with each family and family member to resolve the conflicts that brought them to a crisis point, working toward a belief that change is possible. Then they work together to create plans that become the roadmap to the family's — and each family member's — success. As families set their own goals, we also guide them to any additional resources needed, such as food, housing, or healthcare. The work isn't just about helping families address momentary crises. They equip them with communication skills, knowledge of resources and a network of support.
