EMPIRE CITY MOTORCYCLE CLUB, INC.

MINUTES - FEBRUARY 15, 1984

Meeting was held at Frank's and started at 9:01 P.M.

PRESENT: Frank, Daniel, John, Jamo, Michael, Brugh, Emil

ABSENT: Ed B., Ed D., Anand, Keith, Tom, George, Ron, Charlie, Ken, Bob

Minutes for Jan. 25 meeting were accepted. Correction: \$95.- box rental

OFFICERS' REPORTS:

Treasurer:

Checking Account	-	\$844.16
Savings Account	-	208.28
Accident Fund	-	930.07
20th Anniv. Fund	-	510.42

Road Captain: Ten members went to Philadelphia for the Feb. 4 bar night at the "Bike Stop" - Dan, Ron, Tom, Brugh, Ed D., Ed B., George, John, Anand and Emil. Brugh and Tom rode their bikes. Former member Jason Halle and friend Bob put six of us up in their home and provided a sumptuous spaghetti dinner with a cake inscribed "Phila. Welcomes Empire City M.C.". Photographers from two local journals - "Au Courant" and "Phila. Gay News" arrived to take group photos. Since the Vanguarders were having a club dinner at the same time we tended bar, we had an unusual number of members of other clubs (Spartans, Bucks, Pensmen, Wheels, Cycle and others) in Philadelphia, who came to the bar to support us. Proceeds amounted to \$178.07 covering 15% of bar - \$86.95 plus tips - \$113.12 - total - \$ 200.07 less bottle for Jason and Bob \$22.00. Charlie who unfortunately could not make it, graciously sent two large boxes of fresh croissants which were enjoyed Sunday morning. The bar owners were happy with our performance and invited us to come back on our bikes this summer for another bar night. Tentatively accepted. Thank yous were sent to Jason, Bob and the Bike Stop. Brugh reported on his bike trip back to New York, having had to stop a few miles from the Holland Tunnel due to shield fogging and flakes. He was picked up by Ron and Ed B. via trailer. Tom had left earlier, at 1:30 A.M. and encountered no problems. Contacting bars in other cities for bar nights was discussed. Possibilities: Quarry in Springfield, Pub in New Haven. To be taken up again.

20TH Anniv. Committee: John reported that we now have received: 31 - Pre-Registrations at \$10.00, and 14 - Reservations for "Cage" at \$47.00. Letter of confirmation has been drafted and will be sent out shortly. An itinerary for the bike trip between Aug. 22 and Sept. 5 was outlined. Included are the Marathon (Spartans) Run costing about \$130.00 and the Leathermen (Atlanta) Run at about \$90.00. Reservations for motels along the way will be made and deposits to be collected from those planning to go. Ron and Ed D. are discussing transport vehicle arrangements. Commitments from seven bikers outside of club have been received.

Having bikes in tip-top shape before leaving was discussed. Also first aid course to be taken, emergency kit to be taken along. Members going to the Northeast Riding Seminar in April will learn about first aid. The AMA has started a support group of AMA members willing to provide assistance (tools, pickup, or just coffee) to riders who have broken down in unfamiliar areas. We will look into joining.

A motion was made by John, seconded by Frank, that the club purchase a 2-way communication system to be used on the 20th Anniversary Run, as well as other runs, for about \$90.00 for a set of two. Motion carried. Dan will contact Paul Rose of the Spartans who have used such a system successfully for some time, to find out brand name, etc. Dan will purchase set, to be tried out this Spring on our very first group ride.

OLD BUSINESS: None

NEW BUSINESS: Keith Battin has indicated a desire to rejoin the club. As he left less than a year ago, attendance at three consecutive meetings is not required. However, Keith feels he must do so before being reinstated - these are his own personal feelings. Due to commitments he is unable to attend most of the next three meetings, nor the installation dinner on Feb. 28th. Motion made by Frank, seconded by John: That Keith be reinstated as a member of the club, and, as stated in the constitution, not be required to follow the procedure of attending three meetings before reinstatement, as he is rejoining within one year from resignation. Motion carried.

GOOD & WELFARE: Dan noted in current issue of AMA magazine that the "Empire Motorcycle Club" which disbanded in 1960 has now applied for reinstatement in the AMA under their old charter number. Club is now located on Long Island, action was taken by one of their older members. As Emil had previously reported, he had heard of the existence of this club years ago from old timers in AMA District 4, who inquired as to whether E.C.M.C. was the same club. Seems that Empire M'cycle Club was founded in NY City in the 1920's, headquartered in Manhattan, and used to meet in Riverside Park. Emil will write the old club for more info.

Important Date - February 28th - Installation Dinner - Spike - 7 P.M.  
Double Bar Night Later - Spike & Eagle

Suggestion by John that club members wear their colors at all times - in bars - on bikes - at out-of-town events. Visibility is important.

New T-Shirts were tentatively discussed - bearing 20th Anniv. logo.

The AMA reported that thanks to their lobbying efforts, motorcycle tolls on bridges and tunnels within New York City remain at \$1.00.

Meeting adjourned at: 9:47 P.M.

(After the meeting, those present enjoyed a slide show given by Frank of club events and other runs over the years - beginning with E.C.M.C.'s second annual Christmas Party held in 1965 in Brooklyn Heights at the home of George Grimm, club president a few years later - and ending with members' antics at the 12th Anniv. T-Bolt Run last June. Show lasted 1½ hours and it was amazing the number of faces we had not seen in years, some of whose names we could not recall, and, some of whom are no longer with us.)

Thanks was also extended to the Spartans for their help in publicizing and supporting our tour and festivities.

OLD BUSINESS: Dan reported on the two way communication system which the club voted to purchase at its last meeting. Discussion of this was tabled until we are ready to plan the Christmas event.

John reported that our Tax ID number had been applied for.

Mike was congratulated on his purchase of a new bike. (Not a Harley)

The meeting was adjourned at 10:00 P.M.

#### 2. 20th Anniversary:

We have received 6 more pre-registrations, and have had one cancellation for "la Cage". The mailing list is being updated. John and Tom will be working on run applications (for the tour). John stated that he is very interested in getting membership input regarding activities for the tour and the anniversary celebration. He announced that he will be delegating specific jobs as the need arises.

#### 3. Road Captain's Report:

Bar Nite at the Post in Philadelphia on the 24th of March. Charlie, Jaamo, John, George and Dan have volunteered to work the bar. Keith and Mike will be back-ups. BE AT THE POST BAR AT 7:00 P.M. sharp.

Brugh and Emil will be the only members going to the April 14th Touring Conference at Wallingford.

Tom further reported that he brings regards from the Cenurians from Columbus, Ohio and from the Crucibles in Pittsburgh. He approached the management of The Pittsburgh Trucking Company about a possible Bar Nite there. The management is extremely receptive and will even arrange to put us up for the week-end.

### OLD BUSINESS:

Dan Reported that the Communicators had been ordered and should be here soon.

A report was made by Dan regarding a phone conversation with Carlos Martino who reportedly was upset that he had not been invited to the informal Installatin Dinner. He claimed that he had Honorary Membership in ECMC and had a letter to prove it. This letter was forwarded to Dan, and it is true. We have him as an Honorary Member even though the new Constitution does not allow honorary membership. We will change the present club roster to list only ACTIVE membership.

### NEW BUSINESS:

Dan reported the receipt of a letter from the EAGLE announcing the end of their support for Bar Nites. We can still keep our trophies there, but as of April 1st - no more clubs at the bar. The Road Captain has been directed to explore the possibilities of using other bars for our Bar Nites.

### GOOD AND WELFARE:

Dan reported that Ron B. has been back in the hospital since March 10th. He is suffering from a duodenal ulcer and is in Intensive Care. He is allowed no visitors, phone calls, cards or flowers. At the present time he has received

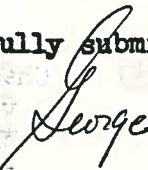

about fifteen blood transfusions. The conditions is complicated due to the fact that the thrombosis of the leg precludes the use of administering clotting agents to stop the bleeding of the ulcer. IT WAS SUGGESTED THAT THOSE OF US WHO ARE ABLE TO DONATE BLOOD IN HIS NAME SHOULD DO SO.....OR GET FRIENDS TO DONATE. Call the N.Y. Bolld Center to find out where to make this donation, and have it credited to Ronal Buchanan, Intensive Care Unit, Palisades Hospital, North Bergen, New Jersey. This is all we can do at the present time other than add our prayers for his speedy recovery.

It was announced that Don Daily, former president of Cycle passed away of a stroke.

Charlie reported that he knew of a '76 BMW on sale for \$ 1500. Jose is very interested in buying it.

MOTORCYCLING SEMINAR - NORTHEAST RIDING - WALLINGFORD, CONN.

APRIL 14, 1984

I. PREVENTIVE MAINTENANCE / ON-THE-ROAD REPAIRS

Speaker: Local Motorcycle Dealer - Yamaha

Pre-Ride Inspection:

- Steering: Sit on seat, elevate front wheel, move handlebars right & left, check for looseness
- Brakes: Check level of brake fluid in container (this applies to newer bikes, transparent container on handle bar), do not remove cover, this lets air into system. Check for leaks & sponginess of fluid
- Tires: Check for correct pressure. Performance is related to tire pressure - too much: small contact to road, too little - unstable handling of bike. Stay within recommended ranges. Full dress bikes - do not operate at high speeds, stay within recommended speed limits.
- Fuel: Check if enough
- Lighting: Check all lights - indicator; oil pressure, high-beam, neutral, turn signals, head light, brake light
- Horn: Check Operation
- Kill Swtch: on some bikes, also grounding
- Oil: Check if at correct level, and leaks. Slight gasket leaks are normal even though not desirable.
- Throttle:
- Clutch: Check for improper free play, feel for slippage
- Shaft Dr. Check for fluid leaks
- Chain Dr. Check tension by moving up and down. Tight chains cause excess load on bearings, increase wear  
Slack Chains - tighten
- Front Frk: Check for leaks
- Rear Shks: Adjust for pre-load

- Bring with you: Aerosol Flat Fix  
Cylinder Air Pressure Tap - for air in tire  
Flashlight , Electric Tape, Spare Fuses  
Tube & Tire Repair Kit - made by Stop & Go,  
(contains: plug pusher (heavy duty only),  
rasp, & tool for pushing in  
Garbage Bag - to spread tools & parts out on  
Spare Head & Tail Light Bulbs - wrap securely  
in tissue to prevent shock  
Emery Board - for point-type ignition  
Matches or Lighter  
Directory of Dealers - for repairs, see Rider Mag.  
Tire Irons - do not use screwdrivers  
Pliers, Screwdrivers, Wrenches (repair tool kit  
wrenches with others of better quality)  
Needle Pliers, Vice Grips, Coil of Mechanic's Wire  
Air Pressure Gauge  
Bar of Soap (to reinstall tire

Tire Repairs: Do not remove object stuck in tire.  
Fix flat as best as you can, with either aerosol can (use air cylinder pressure tap to complete inflation of tire)  
Do not continue riding on a repaired tubeless tire - replace at once.

Tow Truck: When calling to order, be sure it has hoist mechanism able to handle bikes. If not, flatbed truck is more suitable.

Engine Stops: If fuel is low, check if it is getting to the carburetors, beyond petcock  
Check Sparkplugs, clean if fouled  
Fuses - do not replace before checking wiring, wires may be worn from scraping against tire under rear fender

Nuts & Bolts: Check periodically for tightness.  
Apply lock tightener liquid.

Center Stand: Some bikes have a locking mechanism consisting of two holes through which a screwdriver fits.

## II TIRE SAFETY

Speakers: Representatives of Dunlop Tire Co., Buffalo Plant

Dunlop, a British firm, has plants in Buffalo and Ohio, and makes most of the motorcycle tires used throughout the world. Experimenting with radial tires for bikes. Dunlop strives constantly to create right tire for specific purpose. Most of lecture stressed proper inflation, shown with slides. Stressed caution with overloads - larger bikes, side-cars, trailers - special tires required, Dunlop experimenting.

Tire Gauges: It is important to have a good model, even if expensive (about \$25.00), one that holds the reading, one that is not likely to be off much. HONDA Tire Gauges read usually 5 Lbs. higher than true pressure. Each pound of under pressure represents 15 pounds lowered carrying capacity!

Tire Inflation: It is important to have proper pressure at all times, pressure affects tire wear and safety.  
Overload/Under Inflation - damages tires  
Over Inflation - Causes rapid center wear

Valve Caps: Do not operate without! Considering the delicacy of tire valves, it's a wonder they don't give out very often with all the pressure bearing upon them.

## III FIRST AID

Speaker: Paramedic, with local ambulance team

Speaker stated that most motorcycle accidents appear to be the cause of impaired driving abilities due to alcohol or drugs.

First of all - DO NOT MOVE THE VICTIM - only in life-threatening situations

- 1) First concern: Victim's airway - is he breathing properly. Check by looking, feeling. If on side, feel mouth for breath.
- 2) Check pulse by feeling arteries, also near adam's apple. OK to undo chinstrap but DO NOT REMOVE HELMET
- 3) Check bleeding, if bad, control by direct pressure (gauze squares on wound, use hand in emergency, if persists, insert fingers into wound. Apply pressure to arteries which can be seen exposed beneath the skin. Apply tourniquet if needed, over artery, above injury, twist until bleeding stops, do not loosen
- 4) Spinal Injuries - can be worsened if helmet is removed! The only time helmets can be removed is if they impair breathing (closed full face) or if blood seeps from underneath helmet. To remove needs two persons - one to stabilize head, the other to pull off
- 5) Talk calmly to patient, find out what hurts, if he can, have him move hands & feet (DO NOT REMOVE BOOTS). If patient has not lost control of hands & feet, spinal cord is intact. If patient is flat on back, arms down & palms up - probably spinal injury - also indicated by penis erection.
- 6) Until ambulance comes, keep patient from moving. Hold head in place, behind ears, pull slightly towards you. Explain to patient what is happening and what has been done and to keep still to prevent further injury. Another clue to spinal injury is deformity in back of the head.
- 7) Patient going into shock - indicated by enlarged pupils - compare his pupils with those of others. Shock causes cool and clammy feeling of skin, dizziness, nausea (caused by severe internal injuries or blood loss).
- 8) Treatment of Shock: Talk calmly to patient, reassure him but tell him the truth. Prevent loss of body heat by covering, especially the torso. DO NOT give him anything to drink or eat.
- 9) Fractures - check for, indicated by pain, tenderness, swelling near fracture, loss of limb use.
- 10) DO NOT remove any items stuck in body - press dressing around the area where it entered the body
- 11) Before taking a group ride, all participants should be familiar with location of main arteries against which pressure should be applied in case of injuries.

FIRST AID KITS:

Scissors with blunt ends	Triangular Bandages
Band-aids	Gauze Squares
Instant Ice Pack	Rolls
Methialate Swab	Ace Bandages
Roll of Tape	

IV GROUP RIDING

Speaker: Motorcycle Cop, Westhaven, Conn. Also member of Blue Knights M/C - M'cycle cops

Meeting: Stress beforehand promptness. To discourage delays, do not meet at diners, etc.  
 All participants to arrive gassed up.  
 Rules & regulations to be made and enforced  
 Road Captain to check all bikes - no bald tires, no loose items, properly functioning headlights, tail lights, turn signals  
 Determine how many miles smallest tank can go.  
 When stopping for gas, all top off

Riding: Every rider in a group is responsible for other riders, whether in front or in back of him.  
 Staggered positions - on highway 3 car lengths between bikes.  
 HOLD IT TIGHT - to prevent cars from entering group formation  
 CB - a great asset, either all riders tuning in or else a smaller system between road captain & back rider  
 Keep groups small - max. 10 in each  
 Breakdowns - all pull off to side of road

Further Tips:

Always check rider behind you in your mirror  
 Keep group tight even at 60/65 MPH speeds  
 Interstate Roads - use middle lane  
 2-Lane Roads - Use left lane  
 If car cuts in, let him, cars usually will not stay long in the middle of a bike group formation  
 Cops not into biking (ROOKIES) are usually down on bikes especially what they perceive to be loud mufflers.  
 Decently clothed riders will receive better treatment from both the public and cops - club uniforms, clean clothing  
 How to handle slow drivers in groups - push them to keep up with others.  
 All riders should keep their positions in groups and stay there for the duration of the ride, but may change after stops. However, Road Capt. and rear man are the most important - they always remain in same spots.  
 Officer stated that when he is cut off on his bike, he usually follows the car and forces it to stop - not recommended for ordinary bikers.

V SAFETY

Speaker: Brett Borden - Teaches high school students how to ride, also various other biking courses for Wallingford Motorcycle Safety program

This lecture was aimed more at beginning riders, and mostly covered items with which long-time riders are already familiar, but nevertheless, some good points were brought up.

A short film was shown, stressing reaction to and anticipation of various situations.

Problems of Street Riding: Vulnerability, Stability, Maneuverability, difficulty of being seen by other vehicle operators

When riding in traffic, scan road ahead, do not focus on any particular object, but move eyes from side to side. Be able to anticipate the next 12 seconds, if you cannot see that far ahead, slow down.

Clothing: Wear colors (bright) that are visible.  
Wear boots/shoes with good heels so that your feet will not slip off pegs  
2-Piece Rainsuits recommended - more flexible for rider  
Wear gloves, summer and winter

Helmets: Most visible colors - WHITE and SILVER  
Full-face helmets an absolute must for highway travel.  
Other helmets OK for local travel  
Shorties - don't use  
When buying helmets, check for DOT, Snell Memorial Foundation or ANZZ90 approvals  
Check face-shields also for same approvals  
Bell will replace all helmets damaged in accidents.

Inter-sections: The area of most bike accidents, 62%  
Vehicle to the right has first preference in intersection.  
60% of all motorcycle accidents are multi-vehicle accidents.  
When crossing railroad tracks, do so at a 90° Angle

Following Distances: In group riding, a 2-second following distance is recommended beginning with 30 miles per hour. Increase as speed grows.  
To determine, align bike ahead of you with a stationary object on side of road, and count: one thousand one, one thousand two, etc.  
Following an automobile - min. 5 seconds.

Seminar was attended by E.C.M.C. members Brugh (Asst. Road Capt.) and Emil (Treasurer). Due to the rain that day, we could not travel on our bikes and had to rent a car. We arrived at 9:20 AM, were served coffee and Danish pastries. Each workshop lasted about an hour, there was a lunch break from 12 to 1 PM, buffet style, lasagna, salad, etc. with desert was served. Seminar ended about 4:15 and we left shortly thereafter, arriving in New York City at about 7 PM after having driven mostly in pouring rain.

About 50 to 75 people (both sexes but mostly male) attended the seminar. Although a lot of what was covered we were already familiar with, we did pick up many new points, especially in the First Aid workshop which, regrettably, was attended by only 7 people including ourselves. We attended all workshops together, choosing those we deemed most important. Other workshops which we did not attend included camping on bikes, clothing.

*Emil*

ADDITIONS TO EMIL'S NOTES:

(Motorcycle Seminar on Touring - April 14, 1984)

Emil's notes were very detailed and I do not have a lot to add to his report:

I. PREVENTIVE MAINTENANCE/ON-THE-ROAD REPAIRS:

Pre-Ride Inspection:

Steering: Front wheel can be elevated by putting bike on center stand and applying weight to rear of bike.

Check for looseness, restriction, jerkiness

In some cases the old-style ball-bearing type of steering can be replaced with the newer type tapered roller

Shaft Drive: Lubrication of rear hub is important.

III. FIRST AID:

Many accidents involve only the biker and are caused by impaired faculties, not another vehicle.

Main pressure points are temporal, facial, brachial, carotid and femoral arteries.

We should arrange first-aid class.

### B. Road Captain:

Tom reported on the NINE PLUS picnic held on July 22nd at Hauska House. It was very well attended. The group stopped at Roger McEnnis' for Brunch, and Roger and Peter joined the group for the ride down to the picnic.

REMEMBER THE BAR NITE AT THE SPIKE ON AUGUST 14th.....

Early Shift-Brugh and George

Late Shift- John and Jamo

SUNDAY, Aug 5th Ride will be to the VANDERBILT MUSEUM. Jamo, Brugh, Emil and Ed D. said they were going. Brugh will lead the group if Tom's bike is still in the shop. Meet at SPIKE at 10:00 A.M.

SUNDAY, Aug. 12th - Ride with T-BOLTS to Rhinebeck Aerodrome. Meet at SPIKE at 10:00 A.M. There will be a picnic with the T-BOLTS. Dan, Jamo Brugh, Emil, George, Ken, Steve, Ed D. and Anand(?) said they would go. MAKE EVERY EFFORT TO ATTEND SINCE THIS WILL BE OUR FIRST RIDE WITH THE T-BOLTS THIS YEAR.

## II. Old Business:

Bob Boyle, the attorney who is handling Ron's estate was at the meeting. He brought two estimates of the bike's value (\$2600), and the Refunding Bond papers we need to sign to get the bike. A discussion followed at which it was decided to take the bike to AMOL for consignment sale if Charlie did not wish to buy the bike. This became academic since Charlie, on his arrival at the meeting stated that he would purchase the bike.

## III. New Business:

Dan read the letter from Mike in which he tendered his resignation as Vice President and member. A shocked discussion followed and it was decided that the Recording Secretary write Mike a letter expressing to him that we do not wish him to resign and pointing out the provisions in the Constitution allowing him to REQUEST continuance of his membership if he no longer has a bike or circumstances do not allow him to ride any longer. (see Article 2 Paragraph 1 of the Constitution)

Anand gave us some information on an organization similar in nature to the Automobile Club of America, but for motorcycles. It is called CROSS COUNTRY MOTOR CLUB, and you can get information about benefits and cost of joining by calling (800)225-1575.

IV. Good and Welfare:

Ed B.'s mother passed away during the past weekend. Expressions of sympathy and condolence were made by the membership.

V. Motorcycle Tour:

Tom reported that all motels were booked. We will be receiving a tour package of information shortly containing names of motels, what you still need to pay on arrival, addresses, telephone numbers, suggestions on what to bring, etc.

All participants have been invited to a Dinner at Dan's on the 21st of August PROMPTLY AT 7:00 P.M. Housing arrangements were made for the three out of towners who will be joining the tour. Ken will house Bob Gunther, Tom will host Dennis and George Sales, John will house George.

WE ARE AIMING FOR A 9:00 A.M. departure the following morning.

VI. 20th Anniversary:

Dan talked about a registration package with the following assignments:

- a. Map of Southern Manhattan available from the Greater Gotham Business Council - EMIL will pick them up
- b. Subway Information and info on how to get a cab-Brugh
- c. Museum Tours and pamphlets from NY Visitors and Convention Bureau-Brugh
- d. Pins and T-Shirts-John
- e. List of Motorcycle shops and Emergency Pick-up-Ed D.
- f. Arrangements with Perry St. Garage-Bob, Ed B. or Tom
- g. Souvenir Program-Dan announced that 150 informational letter soliciting ads have been sent to clubs and businesses. Members were urged to also solicit ads.

This was followed by a WHAT IF.....? discussion. Concern was expressed that we may not have the 46 reservations (paid) necessary to cover the deposit due THE SAINT on SEPTEMBER 15th. It was decided to delay the decision until SEPTEMBER 5th when we will have a meeting at FRANK's house.

A letter will be sent to explain that the festivities end after our formal dinner at the SAINT at about 9:30 P.M. when the door open to the general public. This was deemed necessary since Columbus Day is not an official holiday everywhere, and our registration may fall off since some people have to work on Monday.

Tom will talk to the management of THE STABLE about opening early for some of the run cocktail parties.

Those clubs who have offered to host cocktail parties will man the bars and then pay for the drink tickets tendered by the run participants.

The meeting was adjourned at 10:15

Respectfully submitted,

*George*

New York City to Cape May, N. J.	11 motorcycles
Lewes, Del. to Chincoteague, Va.	14 motorcycles
Chincoteague, Va. to Nag's Head, N. C.	17 motorcycles
Nag's Head, N. C. to Wilmington, N. C.	12 motorcycles
	1 automobile
Wilmington, N. C. to Savannah, Ga.	11 motorcycles
	1 automobile
Savannah, Ga. to Gettysburg, Pa.	10 motorcycles
	1 automobile
Gettysburg, Pa. to New York City/Connecticut	9 motorcycles
	1 automobile

Dan's motorcycle was damaged in his garage the morning of our departure from New York City forcing him to join the tour in Chincoteague, Va. after repairs were completed.

George's tour pack problems precluded his having his motorcycle on the tour at all. Fortunately, he was able to join us in Nag's Head, N. C. with his car. He became our Transport Officer for the rest of the tour - an automobile becoming a welcome addition to the trip.

All in all, motorcycle difficulties did not hold up the tour. We kept to the schedule as planned without sacrificing our enjoyment. Any extra travel for bike maintenance just added to the whole.

Basically, any difficulties we encountered were minor in relation to the number of motorcycles and the miles travelled.

Tour length: 14 days

Approximate miles (excluding side trips): 2300 miles

## A LETTER FROM YOUR GAY MEN'S HEALTH CRISIS

As we continue to work toward the goals we've set for ourselves, the Gay Men's Health Crisis wants to thank all our supporters, again, for your open-hearted response to our benefit last April and to our continued appeals for help. This letter is part of our continuing report to you. We want you to know what we have done and intend to do, and how we hope to do it.

### The money

We spent about \$14,000 to stage the April 8 dance, "Showers," at the Paradise Garage, which brought us more than \$52,000. Even though many goods and services were given to us, others were not. Now that we're off and running, we aim to hold such costs as printing and mailing to the lowest possible expense. None of your contributions—and they continue to come in—has been given to *any* individual or group for *any* purpose other than to pay costs of staging "Showers." We are not now affiliated with *any* organization.

### Our legal status

We are fortunate in the extreme to be represented now by a New York's law firm, Kramer, Levin, Nessen, Kamin, & Soll, as beneficiaries of the firm's *pro bono publico* legal assistance program. Our application for a charter as a not-for-profit charitable corporation is being filed now with New York State, and application to the Internal Revenue Service for tax-exempt status also is being filed for us.

### Beyond "Showers"

We intend to stage several fund-raising events in the near and far future, all coordinated by Joe Hernandez. We will be present with a booth at Gay Pride Week, selling the popular red T-shirts we wore at the Paradise Garage. We are planning an art sale for the early fall, as well as several functions on Fire Island for the season. And we hope to stage a large event by winter in a major hall in the city. Our chairman of all fund-raising, Harry Diaz, is responsible for meeting a goal of \$250,000 by the end of 1982, a goal suggested by our president, Paul Popham. We think we can meet that goal.

### Medical Research

One of our first stated objectives, since the group began to meet last August, has been to aid medical research into the urgent problem of diseases striking and killing urban gay men in the U.S., most of them in New York. Much work has been done and continues now at several federal agencies, notably the Centers for Disease Control in Atlanta and the National Cancer Institute in Bethesda, Md. More funds will be distributed, but the workings of federal bureaus and large medical institutions are alarmingly slow. Meanwhile, according to a CDC official, these gay-related immunodeficiency (GRID) diseases are "a matter of urgent public health and scientific importance" (*New York Times*, "New Homosexual Disorder Worries Health Officials," May 11, 1982). Federal epidemiologists are afraid that, according to the *Times*, "tens of thousands of homosexual men may have the acquired immune dysfunction and be at risk for developing complications. . . ." This we have known for some time through Dr. Lawrence Mass's excellent pieces in the *New York Native* and *Christopher Street*; only now has the wider world recognized our very serious dilemma. Thus a committee headed by Larry Kramer (and including Dr. Mass and Dr. John Raftis) is being formed now, along

with a disinterested board of medical advisors from New York and California, to solicit research grant proposals and judge which of them will receive your funding. This group should be formed within three weeks to begin considering a number of immediately useful projects, work that will help all of us lead healthier, less troubled lives. In the meantime, we recently cosponsored, with New York University Medical Center, an open and free-of-charge forum on the GRID problem; three physicians—Drs. Alvin E. Friedman-Kien and Linda Laubenstein of N.Y.U. and Dr. Dan William—spoke to a large audience on the risks and perils of the syndrome. We intend to sponsor several more such programs in the near future as part of our effort to inform those who are interested.

### Our newsletter

The first issue of our newsletter was distributed free at the Gay Pride Rally. We want to let you know, in the simplest terms, exactly what is known now about GRID diseases and what is not. So much conjecture and unfounded rumor circulates among gay men that we feel there is a growing threat to our mental as well as physical health. We do not advocate taking *any* measures; each man must do what he feels is right for him. But we want you to know who is saying what, how the arguments stand, what is fact, and what is fiction. And we want to serve the community as a posting board, to find out what you need and how we can help. In the meantime, unsettling though it is, *no evidence exists* to incriminate any activity, drug, place of residence, or any other factor—conclusively—in the outbreak facing us. As the *Times* declares: "The cause of the disorder is unknown." And it remains unknown one full year after the outbreak began.

### How to help

As we sort ourselves out from the unexpected success of our benefit, we recognize the high degree to which we are accountable not only to our immediate donors, but to the larger concept of responsible people. We now find that we badly need help in a number of professional and technical areas—ranging from services such as typesetting and printing to advisors on publicity and on staging a large entertainment event. We need all sorts of people to help, above all people who don't mind hard work. We hope to expand the range and diversity of our group. We welcome all who are concerned. And we appreciate deeply the offers extended to us to stage other fund-raising events.

Because we are, finally, accountable for what is done in our name, we ask that those who would do so have our permission, in writing, before they do it. If you are approached by any outfit seeking donations on our behalf, you have a right to know that your contribution will, in fact, go in some part us.

### You can help

We continue to seek contributions both of funds and services. Below is a form we urge you to fill out and mail to us at the address on the bottom of this column. Your contributions may be made payable to:
